Prerequisites (precedences) *

## Contents

1 - Nature, goals and stages of the clinical process with children and adolescents
   1.1. Assessment procedures and types of problems
   1.2. Conceptual models of assessment and case analysis
2 - Case formulation for specific disorders in children and adolescents
   2.1. Behavioral disorders
   2.2. Mood disorders
   2.3. Anxiety disorders
3 - Ethical issues of case formulation and efficacy evaluation of therapeutic procedures

## Bibliography

## Teaching methods

Lectures with components of:
- expositive presentation of most relevant information on behavioral-cognitive methods and the main conceptual models of clinical case formulation
- skills training through the analysis of children and adolescents clinical cases for clinical decision making about the use of different assessment procedures and to develop clinical hypotheses
- expositive presentation of most relevant information on characteristics of children and adolescents clinical disorders
- skills training through the analysis of children and adolescents clinical cases for planning clinical interventions

**Evaluation Regimes (General and/or Alternative)**

- One individual paper (at the end of the semester) analyzing clinical cases which main goal is developing a case formulation and intervention plan for children and adolescents disorders based on initial assessment data (70% of final grade)
- Group organization and presentation of a clinical case conceptualization and intervention plan, in practical classes (30% of final grade)

**Evaluation Elements**

(Dates due, weights, minimum required grades)

Students must have a minimum grade of 10 in the individual paper, to pass the course

**Rules for grade improvement**

Grade improvement is only possible by repeating the individual paper

**Rules for students having previously failed the course unit** *

Students who fail the course unit have a second opportunity at the 2nd phase of exams

**Requirements on attendance and punctuality**

The students are obliged to be present at all theoretical and practical classes. Punctuality is also obliged

**Rules for special students**

(workers, elite athletes, student body leaders, military, fathers/mothers, with special needs) *

**Language of instruction**

Portuguese

**Disciplinary violations and penalties**

According to the Evaluation of Learning Regulation of the Faculty of Psychology of the University of Lisbon, the following behaviors are considered as disciplinary offenses subject to disciplinary action:

a) To use or attempt to use materials, information, notes, study resources or other objects and equipment not authorized in academic exercises;
b) To help or try to help a colleague in committing a disciplinary offense;

c) To submit the same written work for evaluation in different course units without permission from the instructors, even if with minor changes;

d) To present someone else's work as one's own;

e) To forge, or change without permission from the author, any information or citation in an academic work;

f) To interfere, change or attempt to change grades;

g) To try to prevent or interfere with the proper functioning of classes, research or other academic activities;

h) To make false accusations regarding instructors, governance bodies, other students or non-teaching staff of the FPUL;

i) To falsify signatures in attendance sheets, documents relating to evaluation elements or in any official document relating to an academic process or status.

Disciplinary offenses committed in any assessment element can lead to its annulment, and must be reported to the Pedagogical Council or, considering their gravity and repetition, may lead to other penalties, to be determined by the Rector of the University of Lisbon.
