Institution

\ Mission

FPUL is oriented toward the creation of knowledge, as well as to high quality education with implications to the professional practice of psychological science.

\ Vision

Becoming a leading school of psychology in Europe, attracting the best researchers and faculty to work in a welcoming, challenging and global environment.

\ Values

Excellence; Humanism; Critical thinking; Sustainability.

Psychology is a discipline of the social sciences that has advanced the most in the knowledge of individual and collective human behaviour, with impacts in other areas of knowledge such as Economics, Management, Environment and Life Sciences and Health.

Graduates work as health professionals in hospitals and health centers, as psychotherapists and private practice counselors, as school, environmental, or work and organizational psychologists.

1

For the last 40 years FPUL has educated generations of psychologists and leaders

2

Participation in national and international networks of excellence

3

Integration into strategic partnerships and interdisciplinary thematic colleges

4

1 Integrated Master, 2 Masters, 10 PhD Programs, 6 Postgraduate courses

5

Living & Studying in Lisbon

ONE OF THE SAFEST AND
AFFORDABLE CAPITALS OF EUROPE
EUROSTAT

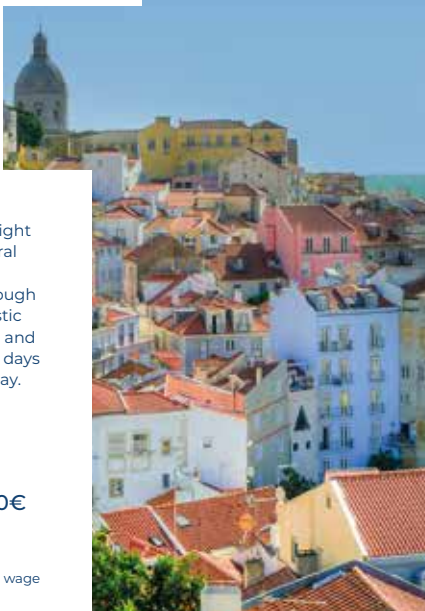

DISCOVERING LISBON
A COSMOPOLITAN CITY
FULL OF LIGHT

The Tagus River and the Sun are always present in the city. Lisbon is a mirror of light and color, where natural and architectural beauty walk hand in hand. Almost a thousand years of history are visible through the unique monuments and characteristic neighborhoods where the city was born and to which it remains true. Lisbon has 260 days of sunshine per year, nearly 9 hours a day.

Cost of living in Lisbon per month

meals 323€			room* 300/450€
30€			635€
metro/bus			minimum wage

Research & Innovation

CICPSI is devoted to fundamental and translational research in Psychological Science with a special focus on psychological and neural mechanisms of adaptation to context in lifelong learning and development. Two groups conduct research in a concerted way. The Adaptation PROcesses in Context group (ProAdapt) and the COgnition in CONtext group (CO2)

The ProAdapt group focuses on the applied research in temporary employment and leadership; selfregulation in socioeducative contexts; cyberbullying; individual and familial psychological assessment and interventions.

The CO2 group fundamental research aims to probe the cognitive and neural bases of memory and learning, literacy acquisition, voice and speech perception, judgment and social cognition.
